

# EarthForce Poly Wafers

## The Leader in 100% Recyclable Wafers!

EarthForce® Poly Wafers are great value priced wafers for your customers.

Made entirely with polypropylene, EarthForce wafers are 100% recyclable, which eliminates the hassle and cost of disposal.

Available in three sizes, EarthForce wafers offer great performance at an exceptional price, and are also a smart choice for use on rental equipment, used equipment, and competitive attachments.

### Features & Benefits

- 100% recyclable material - no disposal hassle or extra fees
- Bristles and inner ring made with 100% polypropylene
- Non-corrosive material suitable for all weather conditions
- Great for sweeping asphalt, clay, gravel, light snow, sand and other road debris
